

Profile

Final-year Information Technology student aiming for a Java developer role. Experienced in building reliable, high-performance server-side systems. Strong understanding of backend architecture, API development.

Career Objective

To secure a Java Developer role where I can design and develop secure and scalable backend systems using Spring Boot and RESTful APIs. Eager to contribute to team goals while continuously improving my technical expertise in backend development and debugging.

- Work Experience**
- Java Developer Intern** Sep 2024 - Feb 2025
- Substring Technology Private Limited, Lucknow, Uttar Pradesh. (Remote)
- Successfully completed hands-on training in advanced Spring Boot and the microservices architecture during the internship program.
 - Developed and deployed scalable RESTful microservices using Spring Boot, integrated with MySQL database, and secured APIs using robust JWT.
 - Designed and implemented centralized API Gateway, gaining practical exposure to advanced cloud deployment strategies and tools.
 - Collaborated effectively in Agile-based development cycles, contributing to backend service design, integration, and automated testing processes.

- Projects**
- ContactSphere – A Cloud Based Contact Management Platform**
- Java, Spring Boot, MySQL, OAuth2, Tailwind CSS, Thymeleaf, Bootstrap, GitHub
- Developed secure, Scalable multi-role based contact management system.
 - Deployed the application on AWS; boosted efficiency of CRUD operations.
 - Integrated Cloud services and robust JWT authentication mechanisms.

- LearnHub – Educational LMS**
- Spring Boot, Microservices, MySQL, Kafka, Docker, AWS, GitHub, Postman
- Built an e-learning platform using microservices architecture
 - Containerized backend service using Docker, deployed services on AWS.
 - Implemented real-time data synchronization using Apache Kafka.

- Sentiment Analysis Web Application**
- Java, Spring Boot, Gemini API, HTML/CSS/JS (Frontend)
- Integrated Google Gemini API to analyze, classify sentiment from user input.
 - Built as part of the “Master Generative AI using Java & Spring Boot” course, showcasing prompt engineering and AI Integration Skills.

- Co-curricular Activities**
- Attended Industrial Visit to WalStar Technologies, gaining valuable insights into real-world software development practices and enterprise IT infrastructure.
 - Completed Certified Course on Spring Boot and Microservices, covering REST APIs, layered architecture, dependency injection, and service-to-service communication.
 - Participated in the AWS Live Online Summit, actively exploring core AWS services, cloud-native applications, DevOps tools, and modern deployment strategies.
 - Engaged in a Expert Session on Exploring the Future of Cloud Computing with AWS, specifically focused on scalability, serverless computing, and architecture.
 - Attended a Workshop on Python Programming, effectively covering programming fundamentals, file handling, OOP concepts, automation basics, and basic scripting.
 - Actively participated in college-level coding contests, technical workshops, and peer learning sessions to enhance programming logic and technical confidence.

- Skills**
- Technical Skills**
- | Languages | Web Technologies |
|---|--|
| <ul style="list-style-type: none">Core JavaDart (Flutter)SQL(Mysql, Postgre)AWS (Basic)Python (Basic) | <ul style="list-style-type: none">HTMLCSSJavaScript (Basic)REST APIsJSON |
- | Tools | Framework |
|---|---|
| <ul style="list-style-type: none">IntelliJ IDEAPostmanGitGitHubDockerMaven | <ul style="list-style-type: none">Spring(Microservice)HibernateReact(Basics)JUnitBootstrapTailwind CSS |
- Soft Skills**
- Critical and Analytical Thinking
 - Cross-Functional Team Collaboration
 - Clear Technical Communication
 - Rapid Technical Skill Acquisition
 - Efficient Task Prioritization and Execution

Educational Background

B.Tech in Information Technology
Dr. J.J. Magdum College of Engineering, Jaysingpur , Maharashtra 2022 – 2026

- Coursework:Data Structures, DBMS, Computer Network, Operating Systems
- Current CGPA : 8.9 / 10

HSC (12th Grade – Science)
Lokmanya Tilak Junior College, Sevli, Jalna 2020 – 2022 | Percentage : 87%

SSC (10th Grade)
Shri M S Jain High School, Jalna 2019 – 2020 | Percentage : 91%

- Certification**
- Spring: Ecosystem and Core - Coursera
 - Data Structures and Algorithms using Java - Infosys SpringBoard
 - Spring Boot & Microservices Training
 - Master Generative AI with Java and SpringBoot | Spring AI - Udemy
 - Cloud Computing With AWS - CodingEra

- Extracurricular Activities**
- Led final-year project team for ConnectEd (Campus Club Management) Project.
 - Hosted a Career Guidance Session on Java Full Stack Development for juniors.
 - Participant – ExoTech 2025, Walchand College of Engineering, Sangli.
 - Member – Coding Club, Dr. J.J. Magdum College of Engineering.
